We have found that in many instances, the Office of Human Resources has provided conflicting and inconsistent answers to questions posed by attorneys in our bargaining unit. NTEU 245 is trying to identify specific instances in which conflicting and inconsistent information has been disseminated.

If you have conducted any correspondence with the TM WORKFORCE RESTRUCTURING mailbox since May 28, 2002 - I ask that you please forward to me any responses that you have received.

Thank you - this information may be very important as we build a case against the Office.
